## BE A PART OF AN INCLUSIVE PROGRAM

French Immersion students receive the same ELL and LST supports as the English program. Curriculum is taught in a universal design for learning framework.

Students whose first language is not English succeed in the program as they use their first language to support acquisition.

QUESTIONS

# GAIN COGNITIVE BENEFITS

Bi/plurilingualism helps the brain process information more efficiently. It is associated with better memory, visual-spatial skills, and creativity. It also staves off cognitive decline later in life.

**NON!** The French Immersion program is designed for students who do not already speak French. Students with any first language are welcome.
