

In accordance with *Ministerial Order (M190/91)*, a Permanent Student Record is required for each student enrolled or registered in the British Columbia public education system.

The purpose of the Permanent Student Record is to document then history of a student's education program. The Permanent Student Record must be retained by school districts for 55 years after a student has withdrawn or graduated from school and stored according to school district policy.

The Permanent Student Record consists of the following two parts:

1. Form 1704, PSB 048 (revised 1995) which replaces forms PSB 005 and PSB 035 (1992) and;
2. A minimum of the two most recent years of Student Progress Reports (including documentation to support orally communicated letter grades) or an official copy of the Transcript of Grades.

In addition to the Permanent Student Record, a Student File shall be established and maintained for each student enrolled in the public education system. The Student File will contain copies of current records used in the planning and administration of the student's education program. For convenience, school districts may choose to store permanent student records in the Student File. The content of the Student File will differ with each individual student. However, at a minimum, the Student File will contain the following:

- Current student record inclusions as listed on form 1704
- A copy of the student's current Student Learning Plan
- A copy of the student's current IEP (if applicable)

After a student has withdrawn or graduated from the education system, records contained in a Student File shall be retained according to the school district policy.

Information should be updated as it changes and the student progressions through the BC school system. School district procedure will determine who is responsible for updating the Permanent Student Record form 1704.

Data for the Permanent Student Record form 1704 may be stored in electronic and/or paper format.

If the Permanent Student Record Form 1704 data are stored in electronic format:

- The electronic format must be Ministry certified.
- The school must be capable of recreating the data in case of a system failure.
- Printouts must represent the fields in the same order as on the form.
