

Trustee Remuneration

The Board of Education will establish a process for the annual review of trustee remuneration.

The formula for calculating the remuneration in any year will be based upon the average of that paid to trustees in the following school districts during the previous year, as well as a sample of other similar sized school districts within British Columbia:

- Chilliwack School District
- Abbotsford School District
- Maple Ridge–Pitt Meadows School District
- Fraser-Cascade School District
- Langley School District

Each year within the budget development process, information will be provided to the Board on trustee remuneration for the previous year in other school districts in accordance with the above.

This information will also be presented at a public meeting of the board in the spring of each year.

Remuneration increases will be effective July 1.

Date Adopted: October 2007
