Background information

The Ministry of Education implemented a policy July 2017, that specifies that Boards of education may only use educational resource materials (i.e., learning resources) that the board considers appropriate, is specified in an educational program guide, or are recommended by the Minister of Education.

For curricula implemented from 2016 onwards, most educational program guides will not include a list of Ministry-recommended resources. Boards may continue to use learning resources specified in educational program guides published before 2016, as appropriate. For certain courses or grades, the Ministry may still recommend the use of specific learning resources.

Any concerns or challenges to the use of a learning resource should be dealt with at the district level, according to the School District's administrative procedures. (Source: [BC Ministry of Education](#))
