

### Graduation Ceremonies

The Board of Education recognizes individual academic, social, and athletic achievement of students who graduate from our secondary schools.

The Board supports community and school graduation functions which celebrate individual student achievement.

Clear and consistent expectations regarding student participation in graduation ceremonies and functions will be communicated to students and parents annually by November. This information will be sent home with Grade 12 students and posted on the school website. Failure to meet expectations may result in denial of student participation in graduation ceremonies or functions.
