(32939 - 7th Avenue, Mission BC)

Mission Public Schools is again hosting an evening of learning for individuals and families in Mission about the transition process from children to adult programs and services. Transition is a necessary but often be a confusing process. Our goal is for those in attendance to gain knowledge and information and be better equipped for this important process.

We are inviting your organization to participate in this event. The format for the information session is a trade-fair environment. Your organization will provide information for families and caregivers as they stop at your table to ask questions and to receive any additional information.

There is no cost for participating in the Mission Youth Transition Information Fair. We value your participation and support of our youth as they navigate the path to adulthood.

We look forward to your participation in our Mission Youth Transition Information Fair! For further information, contact Lisa Stevens at <a href="mailto:lisa.stevens@mpsd.ca">lisa.stevens@mpsd.ca</a>.
