12. QUESTION PERIOD

A question was asked about the repair of the Sewage Lift Station at Albert McMahon. It was noted that the repairs were being funded by the Annual Facilities Grant.

A question was asked about how the budget is being looked at differently?

The Board has revised their decision-making process. Each item includes a review of impacts on the budget and the Strategic Plan.

Is this change related to the Ministry mandating that School Districts have a framework for financial governance practices?

The province came out with some guidelines two years ago. The School District started this process. One example is to build transparency into agenda reports. Also, the Strategic Plan ties into the Ministry's vision for Student Success.

A question was asked about the measures that the Board will consider to strengthen the budget.

The Board will continue to communicate to the Ministry that School Districts are underfunded. When looking at options, the Board will consider options that have minimal impact on student learning. Also, the Board will need to make considerations on how to increase the SD contingency.

What are some examples of measures that would be considered by the Board?

These considerations are discussions that would be reviewed at the Committee of the Whole meetings and in consultation with students.

In light of this experience is there something that the Board would have done differently?

The Board continues to be conservative with enrolment projections. There are various entities that provide this data and there a huge variance among each

entity. The Board had some difficult decisions to make. That doesn't mean that difficult decisions are bad decisions, but they all require a review process.

Are international students included in operational funding?

This would be a good question to bring forward at a budget meeting.

A question was asked about the Operating Revenue Changes that are listed in brackets.

The Secretary Treasurer explained that this is revenue that has increased from the original budget to the amended budget.

13. ADJOURNMENT

MOVED and Seconded that the Board adjourn the meeting.

<u>CARRIED</u>

The meeting adjourned at 7:40 pm.

To: All Board Chairs

I am writing to provide a brief overview of the *Education Statutes Amendment Act, 2020*, which was introduced in the Legislature on February 26, 2020. *The Education Statutes Amendment Act, 2020* may be viewed on the Legislative Assembly website at: https://news.gov.bc.ca/releases/2020EDUC0009=000332

These amendments to the *School Act* and the *Independent School Act* will pave the way for several improvements to child care, K-12 education and ensuring equity for First Nations students, including:

- Articulating a board of education's mandate regarding the provision of before and after school care.
- Clarifying the authority to issue provincial graduation certificates to students and adult students who complete Grade 12 at schools operated by First Nations.
- Allowing personal education numbers (PENs) to be assigned to children who are resident in BC.
- Supporting the implementation of the Ministry's K-12 Funding Review project to enhance the K-12 funding model.

The legislation supports government's broader plan on child care by clarifying that it is within a board of education's mandate to operate before and after school care directly. It authorizes the Minister of Education to make orders respecting the content of a board of education's child care policies; for example, such an order could require board policies to promote partnerships between boards of education and before and after school care providers.

With respect to graduation certificates, the legislation will fulfil a significant commitment by the Province under the BC Tripartite Education Agreement (BCTEA), in alignment with the *Declaration* on the Rights of Indigenous Peoples Act. As you may be aware, for several years the Ministry of Education has been offering the BC graduation certificate (the "Dogwood") to students who complete Grade 12 at First Nation schools that meet specific criteria established by the Ministry. Similarly, the adult graduation certificate (the "Adult Dogwood") has been offered to students of First Nation schools since June 2019. The proposed legislation will provide clear authority for this current practice.

The Education Statutes Amendment Act, 2020 also makes some changes to the legislative framework governing PENs, by authorizing the assignment of the PEN to children who are resident in BC. In practice, the PEN will be assigned at birth or on application for a BC Services Card. As you are aware, currently, the PEN is assigned to children as they enter the school system and is used to provide supports

.../2

and services for students as needed, and to inform provincial education policy. Assigning the PEN at an earlier stage will be the first step to obtaining better information about a child's pre-kindergarten experiences prior to entering the school system, to support early childhood education and capacity for K-12 enrolment planning and preparation.

The proposed legislation will also support implementation of the Ministry's two-phase plan developed following completion of a comprehensive review of the K-12 funding model. To this end, the legislation will:

- Modernize provisions of the *School Act* and *Independent School Act* relating to online learning (formerly distributed learning) to support the review recommendations for online learning across the school system to be focused on program quality and student achievement.
- Introduce provisions to ensure boards adhere to sound financial governance and management practices, including a ministerial order making power respecting the management of operating surpluses and transfers for local capital.

The legislation will also make a housekeeping amendment to repeal the existing provisions relating to the Learning Improvement Fund (LIF), as the LIF is no longer part of the Ministry's appropriation. The LIF provisions in the *School Act* are no longer operational and is now rolled into the Classroom Enhancement Fund (CEF).

School boards will continue to have autonomy to prioritize spending according to local community priorities and needs. Ministry staff will work with Boards, through the BC School Trustees Association, throughout the spring of 2020 to collaborate on new provincial requirements for school districts reserves. This work will honour our shared commitments through the recently-signed MOA between the BCSTA and the Ministry, outlining how we will work together to establish any new provincial requirements for school district financial reserves. And we will continue to be guided by the principles we established together to make sure education funding is: responsive, equitable, stable and predictable, flexible, transparent and accountable.

I hope this brief overview of *The Education Statutes Amendment Act, 2020* is helpful to you. I am confident that this legislation will provide a solid foundation for our shared work and commitments to truth and reconciliation with Indigenous peoples; ensuring families have affordable, accessible, quality child care close to home, and creating equity in how public schools are funded. If you have questions about the proposed legislation, please do not hesitate to contact Keith Godin, Assistant Deputy Minister, Governance and Analytics Division, at (250) 356-6760 or Keith.Godin@gov.bc.ca.

Sincerely,

Rob Fleming Minister
